Work Experience Details (most recent first)

Data Analyst

roadsurfer, Barcelona, SPAIN | Travel Arrangements
July 2025 – Nov 2025 | Freelance

I was in charge of migrating the company’s dashboards from Power BI to Metabase, working across multiple topics, teams, and datasets to ensure a smooth and efficient transition.

- Create new dashboards based on emerged business and add new datapoints as required.
- Develop and optimize complex SQL queries to support dashboard creation.
- Collaborate with business stakeholders to understand reporting objectives and requirements.
- Rebuild and enhance visualizations in Metabase to meet analytical and business needs.
- Ensure data integrity and consistency between Power BI and Metabase outputs.
- Identify and implement opportunities to improve dashboard usability and performance.

What truly sets Jacques apart is that he doesn’t just execute tasks—he actively contributes ideas, challenges assumptions, and brings forward best practices that elevate the entire project.

Alejandro R. | Tech Lead | See full recommendation on my LinkedIn profile

Business Intelligence Analyst

Caravelo, Barcelona, SPAIN | Travel Tech
June 2023 – December 2024 | Full-Time Contract

I played a key role in completely revamping all company’s dashboards from scratch, introducing a new reliable and robust BI tool tracking SaaS Metrics.

- Defining metrics to align with clients expectations. I am closely working with Customer Success Team to ensure dashboards accurately and align to client needs.
- Designing and organising dashboards layouts to clearly and effectively present metrics.
- Implementing advanced analytics in dashboards to empower independent decision-making.
